

# Leave No Trace Trainer Course

Camp Westmoreland  
10-12 May, 2019

The Leave No Trace educational program has become the ethical baseline for modern outdoor Scouting in our BSA publications, advancement, and training events.

Leave No Trace was adopted by BSA in our 1997 Wilderness Use Pledge and has since been our gold standard for high-adventure Scouting in the backcountry.

## What about all the rest of the outdoor Scouting we do?

Can Leave No Trace help us take better care of our Cub Day Camp locations, local parks, and privately owned lands our units love to visit? What about our important and very valuable BSA camp properties?

## What about the traditional Scout activities in the sketches?

Should the "kid-friendly" Leave No Trace ethic and practical skills be a key part of our outdoor, ideals/values, and citizenship development programs for our youth?

This course will provide a Scouting introduction to the science of recreation ecology. The breadth and depth of our national BSA Leave No Trace program is introduced with an emphasis on tailoring it to fit our local Scouting needs.

This very full weekend is designed for unit/district/council trainers who can help bring the full value of the Leave No Trace message into our advancement programs, unit activities, and district/council events.

Scouters will put this adult-level training to work in Cub, Scout, Venturing, and district/council programs. Mature Scouts (14 and up) and Venturers are very welcome.

## Register at the link on our 1BSA.org website

**Mother's Day special - we will be done by noon on Sunday!**

The \$40 cost covers food and training materials. All meals and camping (car/tailgate, high-adventure) will be part of the training.
